Dear Sir

I am sorry to give you so much trouble by not reading the rules. The point had occurred to me and I passed it by as immaterial. This morning I measured ·07

Happy new years

Yours truly

G. Norsworthy

Total from Jan. 1	~~2.04~~	~~2.13~~	~~4.18~~	~~5.19~~	~~8.25~~	~~9.38~~	~~11.67~~	~~16.20~~	~~17.79~~	~~25.67~~	~~27.83~~	~~31.90~~	
										25.67	27.83	31.89	

by both gauges for a clear month, & I herewith append them for the month of June. The total fall here by the large gauge was 1.14 In. & by your gauge 1.13 In. the variation being only ·01 In. so I really think it improbable that the excess in my rain observations for 1890 could have been very considerable. You will see that on the only occasion when there was any considerable fall, viz: June 24th, both the gauges registered the same, viz: 0.37 In: I mention this, as I should have much regretted any material vitiation of the observations.

Yours Truly

C H Pearson

Accurate observers of rainfall will oblige by sending a copy of their record to Mr. G. J. SYMONS, of 62, Camden Square, London, N.W., for insertion in his annual tables of *British Rainfall*, which now contain returns from about 2,000 stations.

Additional Copies of this form (price 3d. each) can be obtained of the above, from Mr. STANFORD, 55, *Charing Cross, and from all the leading opticians.*
